WINDSOR CALIFORNIA

THE OCEAN VIEW CATALOG

Different and Unique

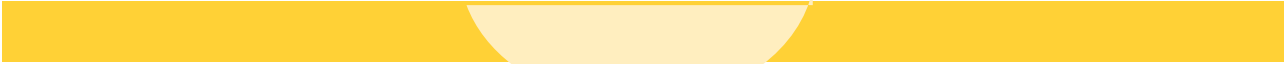

Because this catalog is so different from any other catalog created, an explanation is warranted.

With the logistics and time restraints required in conducting this auction it was decided to present the individuals of the Ocean View Dispersal in herd number order rather than by cow families. Selling nearly 600 Registered Holsteins in one day is a daunting task. To complete the sale in the time allocated, the individuals must be sold quickly. To search through a catalog of this size for individual lot numbers in cow family order and realizing they must be sold in 60 second intervals is an impossibility. The majority of the individuals will be sold by age group, cataloging them in herd number order require less pages and a reduced search area.

On one hand to even suggest not cataloging the great cow families of Ocean View in cow family order seems absurd. Ocean View is built on cow families and the maternal dominance of great maternal pedigrees. To have created the catalog in cow family order and present the tremendous photos associated with each individual within in the catalog would have more than doubled the size and cost of the catalog—not to mention the postage of mailing them out. But it would have been a great catalog and I am as remorseful as anyone by not having the luxury of presenting this one-of-a-kind breeder herd in that fashion. Time and economics dictate the style of this catalog.

I know of only one other catalog (there may have been more) that sported die cut handles to carry the catalog. That was one of the great catalogs of all time. This final Ocean View catalog comes with it's own die cut handles reminding us that tomorrow has two handles. Grab a catalog, settle into a seat and hold on for the last ride on the end of an era. Take home a piece of history.

Dallas Burton

THE SHADOW OF THE PAST IS THE GLUE OF THE FUTURE.. GENERATIONS GRIPPED IN THE HANDS OF A MASTER BREEDER WHO IS THE TRUE KEEPER OF THE KEY; FOR HE IS THE GARDENER WHO MAKES OUR COWS BLOSSOM.

OCEAN VIEW, *The End Of An Era*

In the early days of A.I. and before the arrival of frozen semen, technicians received fresh semen from a limited number of bulls for use on their routes each day. The breeders in that area were all using the same succession of bulls on the same day. Over time one would believe this would create a strong similarity in the type among these herds. Not true. The cattle on each farm were from various maternal lines. Those lines proved to have a real influence on their offspring, enough to make the general type of each herd different from that of their neighbors, in spite of using the same sires.

Marvin Nunes of Ocean View recognized this fact early in his career as a breeder of Registered Holsteins. One of the reasons for this was that as a youngster and in the years following, he was fortunate enough to have the opportunity to visit many times with one of California's great breeders, Harold Schmidt of the famous "Lavacres" herd. Mr. Schmidt was always willing to spend the time to give advice to a young breed enthusiast.

Marvin grew more and more convinced of the importance of the maternal line and cow families. He built on the best foundation he could afford, selecting the cows he felt would breed on and then mating them with what he considered the best sires for them. It has worked exceedingly well, creating one of the breed's greatest herds. Marvin recognized early what genomic research is just now beginning to prove – some maternal cow families exhibit a dominant influence on their offspring. A much stronger influence than the mating service sire.

The nearby Mendocino State Hospital had an outstanding herd and held regular "days" when 4-H'ers could purchase heifer calves from them. Marvin bought one of these calves. Today, six generations of Very Good 200,000 lb. lifetime cows are descended from her in direct maternal line.

The Ocean View prefix has produced nine cows over 300,000-lb. lifetime. A tenth is at 294,000 lbs. and waiting in the wings to bring the astonishing number to ten.

Several other families have been prominent in the herd, including descendants from the famous "Steps" and "Dixie" cows. Perhaps Marvin's favorite cow is Ocean View Lindy Sheen (EX-94), four times nominated milking-age All-American and a California Champion for milk and protein when the record was made. Her seventh direct maternal dam is "Steps". Ocean View Sexation is also from this family.

Ocean View has bred individuals who have classified up to 97 point males and 95 point females. A cow sold in an Ocean View sale classified 95 for her new owner! Many cattle from the herd have gone to other breeders and proven out very well.

And now, as with all herds, the time has come to disperse. The end of the Ocean View Era as we have known it. The large number to be sold in one day means the action will be fast and furious. The great deep-pedigreed cattle with the promise for the future will be sold to the buying public.

Be with us on May 2nd and enter into the realm of history that only a few great herds like Ocean View command. In the shadow of the great Ocean View cow families with their maternal dominance will sprout and grow in the barn yards of those who share the gift.

The shadow of the past embraced by the light of the future.

LIMITED TERMS AND CONDITIONS

TERMS: The terms of the sale are cash unless arrangements are made prior to the sale. Satisfactory settlement must be made with the clerk of the sale immediately after the close of the sale. Only when the above conditions are met will the buyer be entitled to the warranties listed below. Animals will be released only on a signed order from the clerk when presented to the barn superintendent. In no case will animals be released unless settlement is made with the clerk of the sale.

EXPORT SALES: Arrangements regarding health requirements and health tests for a specific importing country shall be a matter of agreement prior to the sale between seller and potential buyer. Otherwise, the buyer assumes all responsibilities for all health tests.

BIDS: The highest bidder shall be the buyer. Bidding parties or their agents are responsible for all bids placed. Every animal or lot is pledged to absolute sale. In case of dispute, the animal or lot shall again be put up for advance bids, and if there be no advance bid, the animal or lot shall be sold to the person from whom the auctioneer on the stand accepted the last bid. In case two or more claim the bid, the auctioneer in the box shall indicate the party whose bid he recognized. Other claimants will be given an opportunity to increase the bid and bidding will be restricted to the two or more claimants.

BY-BIDDING: Bidding directly or indirectly on an animal or lot in which the bidder or any person for whom the bid is made has an ownership interest is prohibited unless the intention to bid is disclosed specific to each animal in the catalog and announced when the animal enters the ring.

RISK: All animals located at sale site are at the purchaser's risk as soon as struck off, but will be cared for free of charge for 24 hours. Purchasers must make arrangements for the care of their purchases beyond the 24 hour period, unless sold for export in keeping with separate terms. Animals are solely at the consignors risk prior to selling in the event of fire or other eventuality.

CERTIFICATES OF REGISTRATION: Will be furnished by the seller showing transfer on the records of the Holstein Association to the purchaser and will be provided free of charge within a reasonable period of time.

WARRANTIES: 1) Each consignor warrants clear title to the animal or lot, and the right to sell same. 2) To the best of the seller's knowledge, each animal is sound and healthy in every respect and embryos have been recovered, processed, frozen, transferred and graded in keeping with IETS recommendations unless otherwise noted in the catalog or announced from the auction stand. Every precaution will be taken to represent the physical condition of each animal or embryo, donors or recipients exactly as is known. Examination of all purchases should be made immediately after the purchase and before the close of the sale, and if found not to be as represented, complaint must be reported to the sale management before the close of the sale. In the event no complaint is filed, it is understood that the buyer assumes full ownership in the case of animals at sale site together with all risks, after which no representations of the seller can be challenged through the sale management. Heifers that never calved are in no way guaranteed as to the condition of their udders following calving. No guarantee is made concerning freedom from hardware unless so announced. 3) "The seller has represented the breeding record of females and service age bulls as accurately as possible, but no male or female is guaranteed to be a breeder."

SHIPPING: Assistance will be given in shipping the animals after the sale. All costs, risks and responsibility will be borne by the purchaser, with the exception of special terms for export purchases. Transportation charges on all animals subject to adjustment shall be paid by the shipper.

PEDIGREE INFORMATION: All production, classification, type and production summaries are current. Only records recognized by the Association as acceptable for pedigrees are used with type of record shown in pedigrees contained herein and are identified as to type of record. Any production or classification records followed by the symbol "have been supplied by the seller, consignor or sale manager."

PARTNERSHIPS AND SYNDICATES: In each case of a multiple-owned animal, each person or firm included on ownership will be identified.

EMBRYO TRANSFER: All registered animals that have resulted from embryo transfer are identified with the suffix ET in the name. Any unregistered animals that resulted from ET are so identified. Any manipulation as aspirating oocytes, in vitro fertilization and maturation, splitting, nuclear transfer of other technology will be identified and will be a matter of record in the Association office. Donor dams are identified.

HEALTH WARRANTY: The seller will provide an official health certificate to the buyer for each animal showing the results of all health tests made in preparation for this sale including but not limited to the following:

Tuberculosis – Each animal other than calves under four months of age has passed a negative test for tuberculosis within thirty days of date of sale. Type of test will be shown.

Brucellosis – Each animal, other than un-cataloged baby calves, and official calfhooed vaccinated females under twenty months of age, has passed a negative test for brucellosis within thirty days of sale. Requirements for tuberculosis and brucellosis may be modified in areas that are brucellosis and/or tuberculosis free when limited dispersion within a free area is obvious and as may be dictated by state regulations.

Other health warranties in this sale shall be disclosed. The result of any future health test is not guaranteed.

JOHNE'S DISEASE: No animal is warranted to be free of Johne's Disease nor to be from a certified free or low risk herd unless so stated specific to the animal and the seller and sale management hereby notify the buyers that all animals are sold with no warranty.

ERRORS: The material in this catalog has been carefully edited. If any error or omissions are discovered, they will be announced. Such announcements to take precedence over the matter or print in this catalog, except for those pertaining to by bidding.

ACCIDENT: The sale management, the consignors, and the owner of the grounds will not be responsible in any case for the condition of the grounds or the behavior of the animals and disclaim any liability in the event of personal accident or property loss.

LIMITATIONS OR WARRANTIES: Warranties contained herein, unless terminated earlier, will cease upon the resale of the animal.
